

Brief Introduction

COPCO is a cosmetic package supplier located in China, providing quality packages for cosmetics, personal care and household sectors.

Purpose - Best packaging solution
Our purpose is to help you find best solution for your package needs. With our team's efforts, your sourcing can be faster and easier. We have a wide range of products, including bottles, jars and tubes with closures or dispensers. Diversified options can be offered, to fulfill your needs and satisfy you customer more.

Culture - Team
In COPCO we value team culture, not just inside COPCO, purchaser, QC and sales work as a team, but also manufacturers are working as a team member with us to serve your needs. And we consider ourselves as a team member of yours, hand in hand we work together to satisfy your clients' requirements. It's the TEAM which makes us walking at the same pace and gets the best package solution done.

Value - Product
COPCO has close relationship with many manufactures in China. All of them have advanced production facility and a full integrated manufacturing system, while our company's speciality is service, including quality control, supplier management and export logistics. We go all over China to understand the market orientation and grasp the development of beauty industry in time, sharing the latest package innovation with you.

COPCO is a modernized organization in management which is ISO9001:2008 certified. We provide package solutions, control quality and provide post-sales service to you. Looking forward to working with you soon.

Material

Outer cap: ABS+AS
 Inner cap: PP
 Shoulder: ABS+AS
 Bottle: AS
 Insert: LDPE+EVA
 Brush: Silicone with hytrel

Product name	Production technology	Material layer options
PE tube	Extrusion	Single layer; 2 layers; 3 layers with EVOH; 5 layers with EVOH
Laminated tube	Plastic barrier laminated tube	3 layers with EVOH; 5 layers with EVOH
	Alu barrier laminated tube	3 layers with Alu foil; 5 layers with Alu foil

Drawing of Head

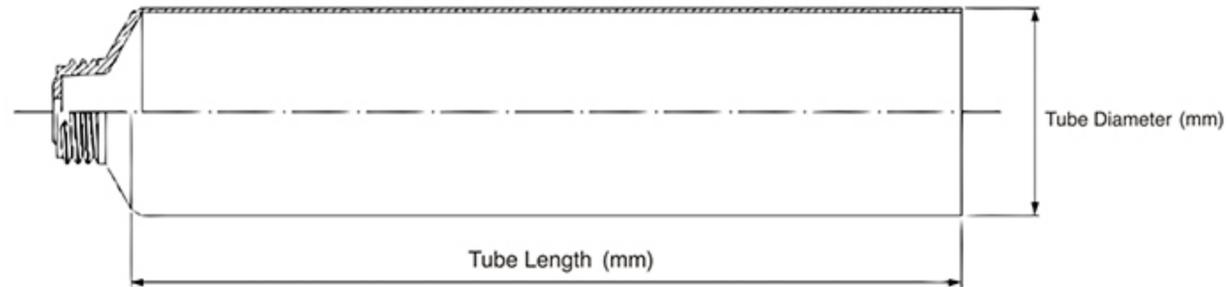

Schematic of Five-layer Extrusion Tube

Special features:
Highly impermeable to gases. Materials inside the tubing will not be oxidized or contaminated by foul odors.

(1) Tube diameter is set, length can be adjusted.

(2) Specifications are for reference only, and customer sizes are available.

(3) Above tube length are the testing result after the sealing, if customer seals the tubes by himself, the tube length should increase 10-20mm.
